Beyond Borders
Saturday 25.05.2019 — 10 am until 10 pm

A day for discussions, workshops, exhibitions, films and performances about borders between communes, regions or states, borders in our minds and borders that you impose on yourself, or that others impose on you. Borders that seem insurmountable, that are secured by fences and walls and borders between cultures and opinions, borders that need to be overcome.

The ZEIT-Stiftung Ebelin und Gerd Bucerius supports research and scholarship, art and culture, as well as education and training. It provides funding for outstanding international young researchers working in an interdisciplinary environment. The Ph.D. scholarship program “Trajectories of Change” contributes to studies in the humanities and social sciences with a focus on transformation processes in the European neighbourhood. The Bucerius Young Scholars Forum in Berkeley deals with histories of migration from an international and global perspective.

The Bucerius Alumni Network brings together fellows in History, Migration and Urban Studies as well as Area Studies concentrating on Eastern Europe and the MENA region.
